

Download OpenScape Mobile Pro Install from App Store

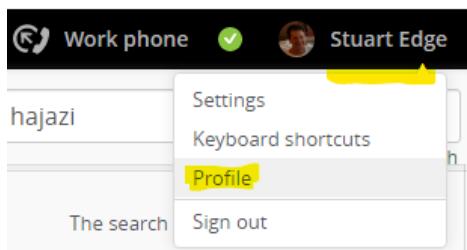

<https://apps.apple.com/us/developer/unify-software-and-solutions-gmbh-co-kg/id302973846>

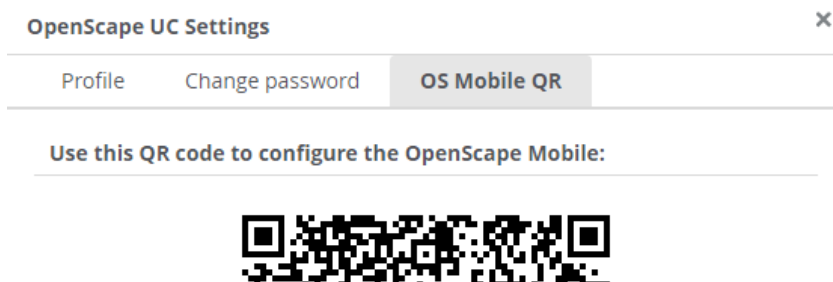

Display the QR Code that contains your personal Account Information

Once the app is installed, a different QR code is provided by Web Client or the UC Desktop App.

1. From Web Client or the Desktop App, click your name, then Profile

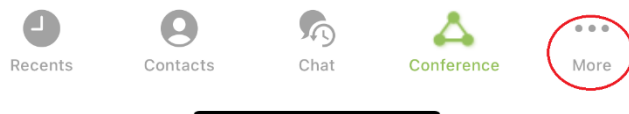

2. Click OS Mobile QR to display your QR code

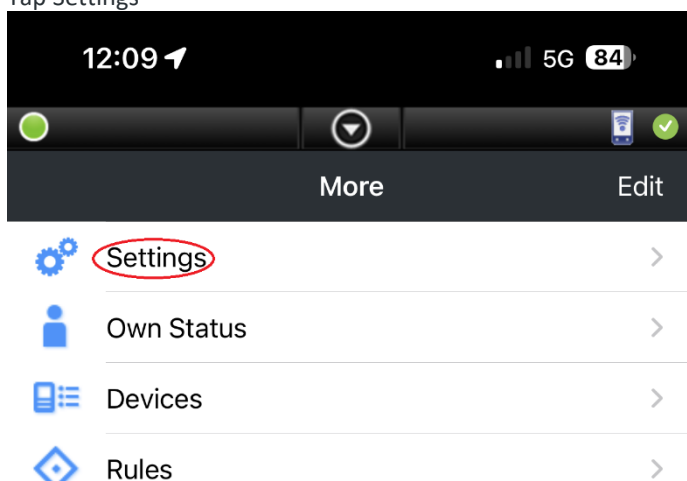

Account

Enter your account details in OpenScape Mobile as follows:

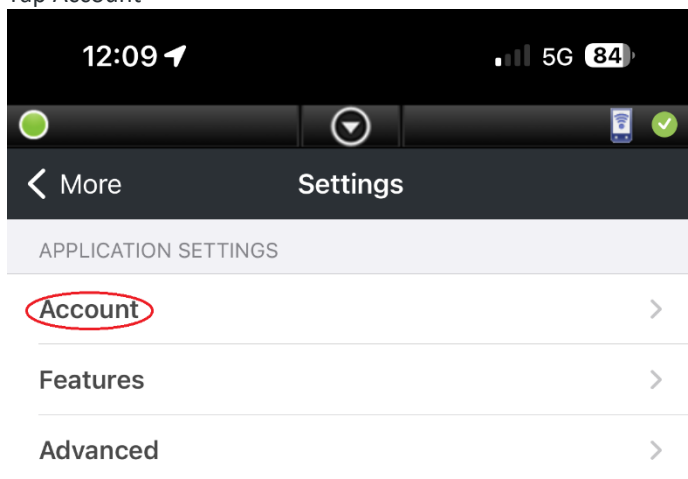

1. At the bottom of the screen, tap **More**

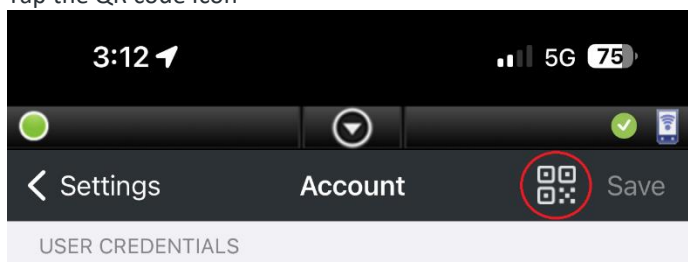

2. Tap Settings

3. Tap Account

4. Tap the QR code icon

5. Scan the QR code.

You should get something like this, otherwise you can enter the details manually.

Subscriber	user.name@system
Password	Manual entry
Remember me	Enabled
Cell Number	+614111111111
Server Address	https://facade.olcs.com.au:8443/axis/services

6. Enter the password, it is not included for security reasons.
It is the same password you use to login to the Web Client or the UC Desktop App

Recommended Settings

1. Make these settings

Allow VoIP Calls	Enabled
Route Calls to Cell	Enabled

2. Advanced Settings

Country Specific Tones	Singapore
Allow Invalid Certificates	Enabled

Login
